WHAT IS SQT BIO-MICRONEEDLING?

SQT® Bio-Microneedling is an advanced, natural and needle-free skin rejuvenation treatment that uses microscopic Spongilla spicules derived from freshwater sponges to stimulate powerful skin renewal from within

Rather than creating mechanical injury, SQT® activates the skin through biological stimulation, encouraging accelerated cell turnover, collagen production and improved skin structure without needles, bleeding or devices. Visible skin renewal typically occurs within 5–7 days.

Principle of Action

SQT®

HOW IT WORKS

- Millions of microscopic spicules are gently infused into the skin.
- Spicules create micro-channels within the epidermis and upper dermis.
- The skin's natural repair response is activated
- Collagen and elastin production are stimulated
- Skin renewal and exfoliation are significantly accelerated

*One SQT® treatment may be comparable to **3–5 traditional microneedling sessions**.*

BENEFITS

- ✔ Needle-free and device-free
- ✔ No bleeding or heat damage
- ✔ Accelerates skin renewal
- ✔ Enhances skin clarity, texture and tone
- ✔ Supports natural collagen production
- ✔ Minimal downtime with visible results

This treatment focuses on results, not relaxation.

SQT®

WHAT CAN IT TREAT?

SQT® Bio-Microneedling is suitable for:

- Acne and congestion
- Post-acne scarring
- Pigmentation and sun damage
- Uneven skin tone
- Enlarged pores and rough texture
- Fine lines and early ageing
- Dull, devitalised skin

Suitable for most skin types and tones, including acne-prone skin.

TREATMENT OPTIONS & PRICING

Single Treatment (1 hour)
$399

Course of 4 Treatments

$1300*
(Valued at $1596 – Save $296)

A structured treatment regimen is recommended for clients aiming to achieve optimal improvements in acne, scarring, pigmentation, skin texture, and overall skin quality. Treatment sessions are scheduled based on everyone's skin response, ensuring progressive renewal and effective collagen stimulation. A consultation is required prior to the start of treatment.

- Treatments should ideally be scheduled 2-4 weeks apart.
- Packages are non-transferable.
- Valid for **12 months from the commencement of the treatment course**.
- Cannot be combined with other offers.

*Purchase three treatments to receive a discounted fourth session, which must be used within 12 months of your initial appointment.

SQT®

IMPORTANT INFORMATION

Temporary redness, warmth, tightness and light peeling may occur, typically from days 3–5 following treatment.

This treatment is not suitable for clients who are pregnant or breastfeeding, have active skin infections, compromised barrier function, severe inflammatory skin conditions, or who have used Isotretinoin within the past 6 months.

Strict adherence to prescribed pre- and post-treatment care is essential to support safe healing and optimal results
